(480)743-2629 Phoenix, AZ Northern Arizona University | GPA: 3.66

EDUCATIONAL EXPERIENCE

Boeing Autonomous Vehicle Engineering Lead

This project focuses on integrating autonomous navigation and control systems into a stock buggy. The vehicle performed assigned tasks autonomously while still supporting a manual drive mode. Presented the project to senior engineers at Boeing.

Key Contributions

- Multidisciplinary Team Lead
- Sensor Design and Integration Testing
- Control System Programming, Design, and Integration Testing
- Simulation Development
- Developed Website

[Learn More Here](#)

Mechanical Engineering Product Development

I started an additive manufacturing company focused on 3D-printing technologies in 2022 called Horizon Layers LLC to have the opportunity to learn CAD and develop real-world mechanical engineering skills and products.

Key Contributions

- Project Management
- CAD Design
- 3D-printing and Manufacturing

[Link to a list of examples](#)

Self-Learning AI Robot

An adaptive AI six-legged robot system capable of learning from the environment and improving walking speed over multiple terrains. This work resulted in a co-authored paper published in the *Journal of Open University Robotics*.

Key Contributions

- Co-Authored Paper
- Development of AI Model
- Training AI model in real-world environment

[Link to Copy of Published Paper](#)

OBJECTIVE

I am a recent college graduate in electrical engineering and cyber security. I have experience in sensors, robotics, and embedded systems and am currently looking for a job in electrical engineering.

WORK EXPERIENCE

SEASONAL ORDER FULLFILLMENT

11/2024 - 12/2024

Old Navy

Flagstaff, AZ

- Maintained a well-kept sales floor
- Designed effective sales tactics
- Fulfilled orders in a high-paced, high-order-quantity environment

SEASONAL ORDER FULLFILLMENT

04/2024 - 11/2024

Home Depot

Flagstaff, AZ

- Handled large scale client profiles in excess of \$60,000
- Operated heavy machinery in confined spaces under time constraints
- Maintained effect Backend and Frontend communications with customers

EDUCATION

Bachelor's of Science in Electrical Engineering

Nothern Arizona University | GPA: 3.66

Minor in Cybersecurity

Nothern Arizona University | GPA 3.66

SKILLS

- Project Management
- C#
- C++
- Java
- HTML
- CSS
- JavaScript
- MATLAB
- Verilog
- RISC-V
- Simulink
- Fusion 360
- OpenXR
- Unity Engine
- Blender
- Unreal Engine
- Godot Engine

NOTEABLE CLASSES

- Power Electronics
- FPGA Development
- Photovoltaics
- Advanced Circuit Design
- Signal and Power Analysis
- Computer Architecture
- Hardware Cyptography
- Malware Analysis
- Website Development

HOBBIES

- Mechanical Engineering Design
- Gardening
- Virtual Reality Development
- 3D-printing
